Fri, 12 Oct 2018 05:25:00 GMT - The infinite monkey theorem states that a monkey hitting keys at random on a typewriter keyboard for an infinite amount of time will almost surely type a given text, such as the complete works of William Shakespeare. In fact, the monkey would almost surely type every possible finite text an infinite number of times. However, the probability that monkeys filling the observable universe would ...

Thu, 11 Oct 2018 09:51:00 GMT - The infinite monkey theorem and its associated imagery is considered a popular and proverbial illustration of the mathematics of probability, widely known to the general public because of its transmission through popular culture rather than because of its transmission via the classroom.. However, this popularity as either presented to or taken in the public's mind often oversimplifies or ...
