Thu, 12 Jul 2018 06:31:00 GMT - There is an increasingly robust literature of recent research findings that support the developmental importance of music in adolescence. However, this intriguing literature is not familiar to many developmental psychologists, possibly due to a lack of communication among researchers and because of publication trends in developmental journals.

The role of music in adolescent development: much more ... -

Tue, 10 Jul 2018 17:18:00 GMT - Het syndroom van Charles Bonnet (CBS) is een aandoening waarbij verstandelijk gezonde mensen last hebben van hallucinaties, het waarnemen van dingen die er in werkelijkheid niet zijn. Deze beelden kunnen zich vermengen met de door de ogen waargenomen visie, waardoor realiteit en 'hersenschimmen' door elkaar lopen.
