the sustainability imperative harvard pdf -

Mon, 11 Jun 2018 22:53:00 GMT - Sustainability is an emerging business megatrend, like electrification and mass production, that will profoundly affect companies' competitiveness and even their survival. The argument: Understanding how leaders competed in previous megatrends—specifically, the quality movement and the rise of IT—can help companies craft the strategies they'll need to gain advantage in this one.
