Mon, 22 Sep 2008 11:54:00 GMT - Williams [43] has included the "lost in a forest" problems in his recent list "Million Buck Problems" of unsolved problems of high potential impact on mathematics. 2.

### **Lost in a Forest - Mathematical Association of America -**

- The push for universal eighth-grade algebra is based on an argument for equity, not on empirical evidence. General or remedial math courses tend to be curricular dead-ends, leading to more courses with the same title (for

example, General Math 9, General Math 10) and no real progression in mathematical content.
